Festival Season Survival Plan

Keeping toddlers calm during busy celebrations · Ages 2–4

Busy festival days are full of noise, guests, sweets and late nights. A little planning keeps little ones regulated and the whole family happier.

Before the day

- ○ Talk about what will happen, using simple words or a picture book
- ○ Plan visits around naps and bedtimes
- ○ Pack a calm bag: a favourite toy, snacks, water, ear muffs

On the day

- ○ Set up a quiet corner with cushions and books
- ○ Keep meals regular, with sweets after food
- ○ Take short breaks outside or in a quiet room
- ○ Watch for early signs of overload: rubbing eyes, clinginess, irritability

Noise and safety

- ○ Keep a good distance from firecrackers
- ○ Try child ear muffs for loud evenings
- ○ Keep diyas and candles out of reach

After

Expect a tired, clingy day after. Keep it slow, with extra sleep and cuddles.
