Colour Sorting and Patterns with Petals

Sensorial work for the festive season · Ages 3–4

In Montessori, children learn to see differences in colour, size and shape through hands-on sorting and matching. Flower petals make it beautiful, seasonal and free.

You'll need

- ○ Flower petals and leaves in 3–4 colours (marigold, rose, jasmine, leaves)
- ○ Small bowls or katoris
- ○ Coloured card cut into small squares, in pairs
- ○ A tray or mat

Step 1: Sort

- ○ Mix two colours first. Add more as they get confident.
- ○ One bowl per colour.

Step 2: Match

- ○ Lay out card squares face up. Find the two that match.
- ○ Later: shades of one colour, light to dark.

Step 3: Patterns

- ○ Start with AB: orange, pink, orange, pink.
- ○ Then ABB or ABC patterns.
- ○ Ask: “What comes next?”

Step 4: Family rangoli

- [ ] Draw a simple circle with chalk at the doorstep.
- [ ] Fill rings with one colour each.
- [ ] Let their part stay imperfect. It's theirs.

Words to use

Colour names in your home language and English, plus 'same', 'different', 'light', 'dark', 'next'.
